Fiber Optic

Fiber Optic Cables

100% optical tested; guaranteed performance specifications. Insertion loss tested on every fiber optic connector. Back Reflection tested on every single-mode connector. Visual inspection of all physical features. Immediate delivery.

Fiber Patch Cables

Multimode and Singlemode 9/125, 50/125, 62.5/125, and MTRJ micron duplex fiber patch cables. Wholesale prices of a wide variety of fiber optic connectors and lengths.

Multimode Fiber Jumper

- 100% Optically inspected.

- Insertion loss testing performed on every assembly

- All cables serialized and test results are recorded

- Over-molded boot for added strength.

- Thumb pad design feature on boot aligned with key for easy installation.

- Guaranteed performance specifications.

- One year warranty.

- Proven reliability of premium grade ferrules and fiber to ensure product excellence and consistency

Singlemode Fiber Jumper

- 100% Optically inspected.

- Insertion loss testing performed on every assembly

- All cables serialized and test results are recorded

- Over-molded boot for added strength.

- Thumb pad design feature on boot aligned with key for easy installation.

- Guaranteed performance specifications.

- One year warranty.

- Proven reliability of premium grade ferrules and fiber to ensure product excellence and consistency

TFOCA

Multimode and Singlemode 9/125, 50/125, 62.5/125, and MTRJ micron duplex fiber patch cables. Wholesale prices of a wide variety of fiber optic connectors and lengths.

TFOCA Tactical Fiber Cable

Extremely strong, lightweight, rugged, survivable tight-buffered cables designed for military tactical field use and commercial applications.

Breakout cable design with an individual color-coded subcable surrounding each optical fiber.

TFOCA Tactical Fiber Connectors

TFOCA connectors are specifically designed, developed and manufactured for the world's leading organizations in the DOD, industrial and high reliability market segments. TFOCA connector systems, cable assemblies, harnesses, kits and specialty products have been used throughout the world in some of the most critical applications; down-hole oil exploration platforms, Navy tactical battle systems, secure data lines for the US Navy, water purification systems, performance automotive and many others.

FIBER OPTIC

Fiber Optic (cont.)

TFOCA Tactical Fiber Spool

The complete cabling system includes the most ergonomic, low weight backpacks and reels for field deployment, special reelstands and reels (up to 2,500mt of cable) for car deployment, easy to handle and re-usable fittings for fast installation on the ground or in the air, as well as field-proof measurement equipment and repair kits.

TFOCA Tactical Fiber Mil Spec

This specification defines the characteristics, performance and testing criteria for single terminus fiber optic connectors. The connectors described herein cover families of both bulkhead and cable termination configurations. The connectors are supplied under a MIL-STD-790 reliability assurance program. Statistical process control (SPC) techniques are required in the manufacturing process of these connectors to minimize variation.

MTP / MTO Cassettes, Pre-Terminated and Pre-Tested

Lower labor costs and greatly improved reliability, the FCA-MTP® "Plug and Play" style module cassette has been designed to mount in Cables Plus RAC or WAC series enclosures and other AT&T (original design) compatible enclosures.

MTP / MTO Fiber Cassettes, Multimode 62.5/125 Micron

Multimode 62.5/125 Micron

	Part Number
6, Simplex, MTRJ(Male) to 1, Male MTP, 62.5/125 (12-Fiber)	CAQM-V48GZB1
6, Duplex, MTRJ(Male) to 2, Male MTP, 62.5/125 (24-Fiber)	CAQM-V48GZF1
6, Simplex, MTRJ(Male) to 1, Male MTP, 62.5/125, Keyed Yellow (12-Fiber)	CAQM-V48LZB1
6, Duplex, MTRJ(Male) to 2, Male MTP, 62.5/125, Keyed Yellow (24-Fiber)	CAQM-V48LZF1
6, Duplex, LC to 1, Male MTP, 62.5/125 (12-Fiber)	CAQM-V68G0B
6, Quad, LC to 2, Male MTP, 62.5/125 (24-Fiber)	CAQM-V68G0F
6, Duplex, ST to 1, Male MTP, 62.5/125 (12-Fiber)	CAQM-VA810B
6, Duplex, SC to 1, Male MTP, 62.5/125 (12-Fiber)	CAQM-VC8G0B

MTP / MTO Fiber Cassettes, Singlemode 9/125 Micron

Multimode 50/125 Micron

	Part Number
6, Simplex, MTRJ(Male) to 1, Male MTP, 50/125 10GB Aqua (12-Fiber)	CAQM-V48CZBC
6, Duplex, MTRJ(Male) to 2, Male MTP, 50/125 10GB Aqua (24-Fiber)	CAQM-V48CZFC
6, Duplex, LC to 1, Male MTP, 50/125 10GB Aqua (12-Fiber)	CAQM-V68C0B
6, Quad, LC to 2, Male MTP, 50/125 10GB Aqua (24-Fiber)	CAQM-V68C0F
6, Duplex, SC to 1, Male MTP, 50/125 10GB Aqua (12-Fiber)	CAQM-VC8C0B

MTP / MTO Fiber Cassettes, Singlemode 9/125 Micron

Singlemode 9/125 Micron

	Part Number
6, Duplex, LC to 1, Male MTP, 9/125 (12-Fiber)	CAQM-V681CB

Fiber Adapter Panels

Cables Plus offers a full line of adapters and adapter panels designed for the use with Fiber-Conn RAC and WAC series enclosures and are now compatible with patch panels from most manufacturers, including Lucent, Corning, Leviton and Superior. 6-, 8-, and 12-fiber panels are available. The 6-fiber panels are offered in ST, FC, SC duplex and simplex, MT-RJ and LC connectors. 8-fiber panels are offered in ST, SC duplex and simplex, and FC connectors. The 12-fiber panel is offered in SC duplex connectors. Fully preloaded adapter panels are available. We also offer preloaded adapter panels with pigtails and patch cords.

Media Converters
High performance media converters are available in most configurations. Standalone converters can work for specific needs such as converting Cat5 10/100 to any fiber configuration or converting single mode to multimode. You can convert duplex to single fiber to reduce your Telco cost by leasing only one fiber. For the data center environment we have high density in both low voltage and standard voltage with redundant power. If you have question please be sure to ask, our specialist can help you select the right product and configuration for you.

Standalone Media Converters

10BaseT to 10BaseFL

Cables
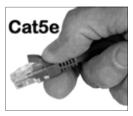

Cat5e and Cat6 Universal Patch Cables

Without a way to connect computers to one another you cannot have a network. As a result your network is only as good as your infrastructure. Improve your network's connectivity with Cat5e and Cat6 patch cables. The connectors ensure the best level of conductivity between the cable and your network peripherals. Designed according to the TIA/EIA 568 A specification.

High-End Audio/Video Cables by Vanco, Inc.

Want the same grade performance, without such a scary price? With more than 46 years in the Electronics Accessories Industry, Vanco has its origin as a provider of high quality audio, video, mobile, and CB accessories. Vanco draws upon their years of electronic experience to develop innovative, electronic accessory products that address emerging new markets.

Featured Product:

CONDUCTOR:
Stranded Center SPC

INSULATION:
Color Coded Foamed PE
100% AL Foil Mylar

BRAIDING SHIELD:
64/0.12 mm OFC

INNER JACKET: Matte Blue

OUTER JACKET: Blue PVC

BLUE JET

• For the Highest Quality Transmission of Video Signals
• Three Discreet Video Paths Enable the Sharpest and Most Detailed Image, Most Vivid and Brightest Color
• Superior Cable Construction Maximizing Noise Rejection, Minimizing Signal Loss and Ensuring the Brilliance of Frequency Signals
• Triple RCA Phono Pin Plugs to Triple RCA Phono Pin Plugs

HTDV372

Bulk Cable

Singlemode/Multimode Fiber Optic Bulk Products

We provide a full menu of NextGen™ fiber optic cables for data communications and voice and video networks. Our products range from tight buffer and armored products for military applications to loose tube and hybrid cables for communications networks, and include the advanced Blolite™ blown fiber systems for local area networks and campus applications.

Indoor/Outdoor Fiber Cable

Whether primarily for indoor or outdoor use, we have an impressive choice of products that have the ability to route from either a plenum or riser building space to an outdoor run. This eliminates the costly and space-consuming transition point at the building entrance and improves the system loss budget. These cables are most efficient when used to directly connect equipment rooms (on any floor) in different buildings or to connect a manhole location to an equipment room.

Applications: Whether primarily for indoor or outdoor use, we have an impressive choice of products that have the ability to route from either a plenum or riser building space to an outdoor run. This eliminates the costly and space-consuming transition point at the building entrance and improves the system loss budget. These cables are most efficient when used to directly connect equipment rooms (on any floor) in different buildings or to connect a manhole location to an equipment room.

Range of Products: Indoor/outdoor fiber optic cables include loose tube (gel-filled) and tight buffer (900μm) designs. These are available in a variety of configurations and jacket types to cover riser and plenum requirements for indoor cables and the ability to be run in duct, direct buried, or aerial/lashed in the outside plant. The following catalog pages provide information on proper interbuilding and intrabuilding applications.

Features: These products reduce the system cost by eliminating splice points, simplifying cable handling and gaining flexibility with the choice of building entrances. All cables meet appropriate NEC requirements and are listed with ETL or UL. Tight buffer designs allow direct termination of fibers with industry standard connectors and techniques. Loose tube designs provide more fiber protection in harsh outdoor environments are are readily spliced to existing outside plant cables. Most indoor/outdoor fiber optic cables utilize Dry Water Block technology in the cable core to protect the fibers and provide fast, clean fiber preparation.

As with all NextGen fiber optic cables, splitter kits are available to reinforce and assist in preparing the fibers for termination.

Please call us for Part numbers and pricing.

CablesPlus

Bulk Cable (cont.)

Indoor Fiber Cable

Premises cables with 900μm tight buffer constructions are built to withstand the continuous handling and difficult routing typical of building backbones. These fiber optic cables emphasize flexibility, handling and proper fiber termination characteristics. This provides reliable and simple installations every time. These cables are used for intrabuilding vertical (backbone) and horizontal runs.

Applications: Premises cables with 900μm tight buffer constructions are built to withstand the continuous handling and difficult routing typical of building backbones. These fiber optic cables emphasize flexibility, handling and proper fiber termination characteristics. This provides reliable and simple installations every time. These cables are used for intrabuilding vertical (backbone) and horizontal runs.

Range of Products: Includes the manufacture of riser, plenum, and Low-Smoke, Zero-Halogen (LSZH) cables. This includes the common distribution designs as well as breakout style cables. Fiber counts range up to 144 fibers.

Features: Premises cables have an industry standard 900μm tight buffer for termination to connectors. The tight buffer diameter is tightly controlled to provide reliable first time connection. Breakout cables utilize 2.4mm breakout dimensions for rugged environments and compatibility with connectors. All fibers are color coded and subgrouped (if necessary) for easy identification for handling.

As with all NextGen fiber optic cables, breakout kits are available for premises cables to reinforce and assist in preparing the fibers for termination.

Please call us for Part numbers and pricing.

Outdoor Fiber Cable

Outside plant cables with loose tube constructions are built to withstand adverse environments and provide the maximum fiber protection. These cables perform exceptionally well in wet conditions and during extreme temperature cycles. They can be installed in ducts, direct buried, and aerial/lashed providing the flexibility needed to meet the demands of campus backbones and other outside plant requirements.

Applications: Outside plant cables with loose tube constructions are built to withstand adverse environments and provide the maximum fiber protection. These cables perform exceptionally well in wet conditions and during extreme temperature cycles. They can be installed in ducts, direct buried, and aerial/lashed providing the flexibility needed to meet the demands of campus backbones and other outside plant requirements.

Range of Products: A wide range of cables from 2 - 288 fibers are manufactured with a variety of designs to meet the demands of most installation conditions.

Features: Only the highest quality materials are used in NextGen fiber optic cables to ensure that the cable strength and optical integrity are not compromised. Rugged jacket materials and the addition of armor provide the right level of protection. The line of outside plant products conform to TIA/EIA, ICEA, Telcordia and RUS standards.

As with all NextGen fiber optic cables, splitter kits are available to reinforce and assist in preparing the fibers for termination.

Please call us for Part numbers and pricing.

Acme Wire Tackers and Staples

Staple Guns for Wire & Cable …Fully redesigned with the Pro in mind!

Unique Safety Grip

Only Acme staple guns feature high-visibility safety yellow "Sure-Grip" handles with integral hand-stop for maximum year-round comfort and safety.

Lifetime Warranty

If it says Acme on it, we'll stand behind it. We're so sure you'll be satisfied with our new and improved staple guns that each one comes with a limited lifetime warranty.

Jamless Design

Our unique loading system makes Acme staple guns faster, safer, and more reliable than ever before.

Test-Um (cont.)

Part Number

Test-Um LanRoverPRO™ - Tester/Analyzer
The LanRoverPRO™ TP600 Tester/Analyzer is the high perform-
ance length measurement CAT 5 tester that identifies multiple
faults clearly without interpretation, has one-ended testing
with pre-test for fast result, clear wiremapping form displayed
on 2-line, 16 character LCD display and measures cable length.

TP600

Test-Um Resi-Tester™ - Whole-House Cable Tester
Resi-TesterTM TP300 is the first identifier and verification
tester designed exclusively for all the wiring environments
found in Home Networking and Home Automation.

TP300

Test-Um Testifier™ - All Cable Tester
The new Testifier™ produces the most accurate and easy-to-
understand results of any cable tester/verifier on the market.
Its large LCD display is easy to read--it shows a clear picture of
a wired cable; data, coax, telephone, security/alarm, or
unterminated site wire.

TP350

Test-Um Speaker Seeker™
The Speaker Seeker™ wiremaps speaker and security/alarm
wire up to 20 individual runs at a time by using 20 wiremap
remotes. Each remote is specially wired with alligator clips to
attach to unterminated paired cable ends.

TP400

Test-Um LanRover™ - Tester/Analyzer
The LanRover™ TP500 Tester/Analyzer offers a new price/
performance level for verification of wiring faults and configu-
rations on all your data cable.

TP500

Test-Um LanScaper™ Network Tester
The new LanScaper™ NT700 Network Tester is the first in a
new line of Physical Layer Network Management Devices. The
LanScaper™ combines the functions of a high-end cable tester
and length measurement device with the capability to monitor
and correct network problems connected with the physical
layer and link conditions of the network.

NT700

Test-Um Tell-All Indicator
The TP100 Tell-All Indicator is designed to aid network techni-
cians and MIS personnel in the identification of the equipment
connected to modular jacks found throughout the workplace.

TP100

Test-Um LanRoverPRO™ Tester/Analyzer
The LanRoverPRO™ TP607 Tester/Analyzer is the high perform-
ance length measurement CAT 5 tester that identifies multiple
faults clearly without interpretation, has one-ended testing
with pre-test for fast result, clear wiremapping form displayed
on 2-line, 16 character LCD display and measures cable length.

TP607

Test-Um Talk & Trace™
The hands-free personal communications set that can be used
in any wiring environment.

Quest

Part Number

Quest Remote Network Delux Tester
The TTE-9030 Remote Network Tester is a versatile tester that allows installers a quick method of testing patch cables and end-to-end cabling. The unit comes with a slide-out detachable remote module and is designed for testing coax, BNC, (Ethernet 10Base-2, 10Base-5), RJ-11 (USOC 4/6), RJ-45 (EIA/ TIA-568A) and USB cabling. It is packaged with an instruction manual and comes with a fabric case with belt loop.

TTE-9030

Quest LAN Cable Tester
The TT-9000 LAN Cable Tester enables the installer an easy method to check and identify pin configurations for patch cords and cable installations. The main unit features an illumination light for visibility in dark work areas. It comes with a remote module, fabric case and 4 test jumper accessories.

TT-9000

Tone Generators & Probes

Test-Um

Part Number

Test-Um Resi-Toner™ - Home Networking
A full function tone generator with unique features designed to further test connections on telephone systems and speaker installations. Find your outlets and assure your connections with the Resi-Toner™

TG400

Test-Um Tone Tracer With High Sensitivity
The Tone Tracer TT100 sets a new standard for field service professionals. Due to its slim, ergonomic design, as well as balanced weighting, the TT100 is the most comfortable tracer available.

TT100

Test-Um Resi-Tracer™ Tone Detector
Resi-Tracer™ TT300 combines unique new features for tracing telephone, network, coax, and audio cable with special functions for finding and phasing speakers and testing telephone systems.

TT300

Test-Um Tone Generator With Multi-Function
TG100 Tone Generator With Multi-Function with alligator clips.

TG100

Test-Um Tone Generator With Multi-Function (Bed of Nails)
TG101 Tone Generator - Multi-Function with bed of nails cord set.

Test-Um CS300 Satellite Finder
The Test-Um CS300 Satellite Finder signal strength meter is a simple mechanical device used to maximize a satellite signal between the LNB amplifier and the receiver.
CS300

Test-Um CX200 Coax Mapping Tester
The Test-Um CX200 Coax Mapping Tester is designed for testing CATV and security camera coax connections and installations.

CX200

Test-Um Resi-Tester™ - TP300 Whole-House Cable Tester
Resi-Tester™ TP300 is the first identifier and verification tester designed exclusively for all the wiring environments found in Home Networking and Home Automation.

TP300

Quest Coax Testers

Part Number

Quest Remote Network Delux Tester
The TTE-9030 Remote Network Tester is a versatile tester that allows installers a quick method of testing patch cables and end-to-end cabling. The unit comes with a slide-out detachable remote module and is designed for testing coax, BNC, (Ethernet 10Base-2, 10Base-5), RJ-11 (USOC 4/6), RJ-45 (EIA/TIA-568A) and USB cabling. It is packaged with an instruction manual and comes with a fabric case with belt loop.

Power Protection

Power Protection, also know as surge protection is a subject that is conflicting and confusing to many. There are many terms that are very technical, but really do not tell the average consumer that much about the product that they are buying.

Power Protection is necessary because as the electricity travels over the copper cables from the power plant to your home or office, it develops surges, spikes and noise. This is referred to as dirty power.

Power Protection devices, like the GXS-701KR, the GXS-702R, and the GXS-703KM have electrical components that take the worst of the surges and spikes and stops them from reaching your delicate electrical equipment.

Surge Protection

Surge Protectors	Part Number
GoldX™ - SURGE PROTECTOR, 6-OUTLET 2-PACK, 03ft CORD	GXS-701K
GoldX™ - SURGE PROTECTOR, 6-OUTLET W/LED, 04ft CORD	GXS-702R

Pelco Fixed Camera Mounts

Part Number

Pelco Fixed Camera Mount In-ceiling Smoked Dome
Pelco DF5-0 Indoor, 5-inch in-ceiling discreet dome with fixed camera mount and smoked lower dome (1/2 f-stop light loss). Plenum rated back box.

DF5-0

Pelco Fixed Camera Mount In-ceiling Smoked Flat Acrylic Sheet
Pelco DF5-0F Indoor, 5-inch drop ceiling mount dome. Lower dome replaced with a smoked flat acrylic sheet, providing additional discreetness. Fixed camera mount. Plenum rated back box.

DF5-0F

Pelco Fixed Camera Mount In-ceiling Clear Dome
Pelco DF5-1 Indoor, 5-inch in-ceiling discreet dome with fixed camera mount and clear lower dome with opaque liner (for virtually no light loss). Plenum rated back box.

DF5-1

Pelco Fixed Camera Mount Indoor Smoked Black Pendant No Camera
Pelco DF5-PB-0 Dome, indoor, 5-inch pendant mount, black, with fixed camera mount bracket and smoked lower dome.

DF5-PB-0

Pelco Fixed Camera Mount Indoor Clear Black Pendant No Camera
Pelco DF5-PB-1 Dome, indoor, 5-inch pendant mount, black, with fixed camera mount bracket and clear lower dome. Opaque liner not included.

DF5-PB-1

Pelco Fixed Camera Mount Indoor Chrome Black Pendant No Camera
Pelco DF5-PB-2 Dome, indoor, 5-inch pendant mount, black, with fixed camera mount bracket and chrome lower dome.

DF5-PB-2

Pelco Fixed Camera Mount Indoor Gold Black Pendant No Camera
Pelco DF5-PB-3 Dome, indoor, 5-inch pendant mount, black, with fixed camera mount bracket and gold lower dome.

DF5-PB-3

Pelco Fixed Camera Mount Indoor Smoked Gray Pendant No Camera
Pelco DF5-PG-0 Dome, indoor, 5-inch pendant mount, gray, with fixed camera mount bracket and smoked lower dome.

DF5-PG-0

Pelco Fixed Camera Mount Indoor Clear Gray Pendant No Camera
Pelco DF5-PG-1 Dome, indoor, 5-inch pendant mount, gray, with fixed camera mount bracket and clear lower dome. Opaque liner not included.

DF5-PG-1

Pelco Fixed Camera Mount Indoor Chrome Gray Pendant No Camera
Pelco DF5-PG-2 Dome, indoor, 5-inch pendant mount, gray, with fixed camera mount bracket and chrome lower dome.

**Pelco Universal Camera Mount 5-inches up to 7lbs**
Pelco CM1750 5-inch universal for cameras weighing up to 7 pounds. Ceiling, pedestal or wall mount. Manually adjustable swivel head with set screw. Identical to CM1750S except 2 in. longer.

CM1750

Pelco MD Ceiling/Ped Mount Adjustable Swivel 9 in.
Pelco EM1009U Medium-duty ceiling/pedestal mount, 9-inch height, with adjustable swivel head and cable feedthrough hole. Supports up to 40 lbs. For enclosures with 2-inch mounting hole pattern.
                    15 in.

EM1009U

EM1015U

Pelco Medium-Duty Pedestal Mount Adjustable Swivel-Head
Pelco EM1109 Medium-duty pedestal mount with manually adjustable swivel head. For enclosures with 2-inch mounting hole pattern. Primarily for mounting on horizontal pipes or poles.

EM1109

Pelco Light-Duty Mount for EH3500 Series Enclosure
Pelco EM1450 Light-duty wall mount for use with EH3500 series enclosures.

EM1450

Pelco MD 90-Deg Wall Mount Adjustable Swivel Head
Pelco EM1900U Medium-duty 90-degree wall mount with manually adjustable swivel head and cable feedthrough hole. Extends 15.45-inch from wall. Supports up to 40 lbs. 2-inch mounting hole pattern.

EM1900U

Pelco Medium-Duty J-Mount to Vertical Pole
Pelco EM2000 Medium-duty 90-degree "J" mount for mounting to a vertical pipe or pole. Manually adjustable swivel head. For enclosures with 2-inch

Pelco Medium-Duty Wall Mount for EH4014 & EH55
Pelco EM22 Medium-duty wall mount for enclosures with 2-inch hole pattern and light- to medium-weight cameras. Manually adjustable swivel head. Supports up to 40 lbs.

Part Number: **EM22**

Pelco Medium-Duty Pipe/Pole Mount Enclosure
Pelco EM2200 Medium-duty "hook" mount for mounting to a horizontal pipe or pole. Manually adjustable swivel head. For enclosures with 2-inch mounting hole pattern.

Part Number: **EM2200**

Pelco Mount Enclosure with Cable Feedthrough Hole
Pelco EM2400 Light-duty wall mount with cable feedthrough hole and manually adjustable swivel head. Use with EH3010/EH3014 or EH4010/EH4014/EH4018 enclosures and light- to medium-weight cameras.

Part Number: **EM2400**

Pelco Light-Duty Ceiling J-Mount
Pelco EM3000 Light-duty ceiling "J" mount for use with EH3010, EH3014, EH4010, EH4014 enclosures, or light- to medium-weight cameras. Supports up to 20 lbs.

Part Number: **EM3000**

Pelco Camera Enclosures

	Part Number

Pelco Camera Enclosure Indoor Low-Profile Wedge for Drop Ceiling
Pelco EH1000 Enclosure, indoor. Low profile wedge-style for drop ceiling applications. Hinged lower ABS plastic cover with tamper-resistant screw. Aluminum back box.

Part Number: **EH1000**

Pelco Camera Enclosure Indoor Alum Clamshell Design 10 in.
Pelco EH100-10 Enclosure, indoor. Economical interlocking aluminum "clamshell" design. Security rated with camera/lens access requiring removal of one tamper-resistant screw. 10-inch length.

Part Number: **EH100-10**

Pelco Camera Enclosure Indoor Alum Clamshell Design 8 in.
Pelco EM2400 Light-duty wall mount with cable feedthrough hole and manually adjustable swivel head. Use with EH3010/EH3014 or EH4010/EH4014/EH4018 enclosures and light- to medium-weight cameras.

Part Number: **EH100-8**

Pelco Camera Enclosure Indoor Low-Profile Wedge for Drop Ceiling
Pelco EH2100 Enclosure, indoor. Low profile wedge-style for drop ceiling applications. Hinged lower ABS plastic cover with Phillips head screw. Aluminum back box.

Part Number: **EH2100**

Pelco Camera Enclosure Indoor Low-Profile Wedge for Drop Ceiling (Plenum rated)
Pelco EH2100P Enclosure, indoor. Low profile wedge-style for drop ceiling applications. Hinged lower ABS plastic cover with Phillips head screw. Plenum rated aluminum back box.

USB Storage Devices

ClipDrive Bio™ is the most secure and advanced USB 2.0 & USB 1.1 data storage device on the market. Using leading edge biometric fingerprint technology, the scanner authenticates a user's identity & then gives the user access to the hidden secure partition on the ClipDrive Bio™. All data saved on the Secure Partition portion of the ClipDrive Bio™ is automatically encrypted and hidden.

ClipDrive Bio™ Flash Memory

Home Automation Network

Home Automation Networking equipment is essential for any new homeowner/entrepreneur with a Small Office/Home Office environment. This system is fully-customizable and is easy to install. First, purchase the box (either the NHA-2001, NHA-3000, or the NHA-3001), then purchase any of the components that you need. Each box has holes punched out in the top and bottom for easy cable access.

*For **under** $1,000, you can smart network your home!* Use this for your home entertainment system, home network, telephone lines, ethernet lines, cable, satellite, and much more! You will also need several accessories to make the system work including our Category 5e patch cables, Bundled cable containing both RG6 and Coax cables. Call us with any questions you may have at 866-678-5852 and we'll be more than happy to assist you!

SOHO Home Automation

1. Pick your box!

To begin automating your home's telephone, data, satellite, and cable connections, you are first going to need a box to put all of your modules in. We carry the NHA-2001, NHA-3000, and NHA-3001 models for your home automation needs.

Cabinets, Racks, & Wire Management (cont.)

Only the best quality equipment and wire management products designed for mounting communications equipment and hardware. The 19" format open frame floor racks are available in 3,4 and 7 foot heights and in natural aluminum or black electrostatic powder coat finish. All racks are provided with all assembly hardware and equipment mounting screws. The rails are tapped #12-24 front and rear in EIA compliant spacing. They are designed with mounting holes which allow anchoring to the floor.

Floor Racks

	Part Number
Quest Manufacturing Floor Rack, 36" Height X 19" Width X 20 Rack Mount Space *Black or Aluminum*	FR1903-20
Quest Manufacturing Floor Rack, 48" Height X 19" Width X 28 Rack Mount Space *Black or Aluminum*	FR1904-28
Quest Manufacturing Floor Rack, 84" Height X 19" Width X 45 Rack Mount Space *Black or Aluminum*	FR1907-45

The Open-Frame Series of wall-mount racks provide the capability of mounting rack-mount equipment when floor mounting space is limited or not available. They are designed for 19" rack-mount equipment with #12-24 threaded rails in accordance with EIA standards on both front and rear flanges. Constructed of high-quality aluminum, these racks are designed for durable service life.

Fixed Wall Mount Racks

	Part Number
Quest Manufacturing Fixed Wall Mount Rack, 22.75" Height X 19" Width X 13 Rack Mount Space	WR1922-13-02
Quest Manufacturing Fixed Wall Mount Rack, 28" Height X 19" Width X 16 Rack Mount Space	WR1928-16-02
Quest Manufacturing Fixed Wall Mount Rack, 35" Height X 19" Width X 20 Rack Mount Space	WR1935-20-02

The Open-Frame Series of swing-out racks provide the capability of mounting rack-mount equipment when floor mounting space is limited or not available. The swing-out design offers unparalleled access to component rear panels. The rear section can be easily separated from the mounting section for ease of field installation. The front section is reversible for right or left side opening. They are designed for 19" rack-mount equipment with #12-24 threaded rails in accordance with EIA standards on both front and rear flanges. Constructed of high-quality aluminum, these racks are designed for durable service life. Available in several RMS sizes, Quest's wall-mount rack series offers solutions for virtually any wall-mount rack requirement.

Kendall Howard Portable Racks

Kendall Howard Portable Rack Systems are the perfect solution for just about any racking need. These systems are durable, lightweight, stackable, and completely portable. You may never again have to worry about running out of rack space. Each rack is fitted with interlocking corner guards so when you need more space, simply add on an additional rack. Our racks come equipped with spring loaded recessed handles and optional casters for maximum portability. Unlike most similar systems that are contracted from compressed wood products, the Kendall Howard rack is made entirely of steel and can hold over 500 lbs. With its expandability, strength, and aesthetic design, this is one racking system you will not out grow (Casters Not Included).

Hinged Wall Mount Brackets

Our line of wall or rack mount brackets provide simple and efficient mounting of rack mount components to walls or open frame racks. Available in both non-hinged and hinged designs in various RMS capacities and in 6" and 12" depths. Hinged designs for easy access to the rear of the components and non-hinged designs for more competitive solutions. Made of 16 AWG steel with EIA spaced threaded mounting holes. In black powder coat finish.

Kendall Howard Rack Shelving

Part Number

Full 20" Rack Shelf
This 20" Rack Shelf was designed to compliment our portable racking systems. This solid design will support up to 300 lbs. This shelving unit is perfect to help support heavy servers and UPS backup systems. This unit is mounted on both the front and rear rails for maximum stability. Each unit comes with ½" sidewall flanges to ensure whatever you place on these shelves does not slide off. This shelf is made with .074" (14-gauge) steel. This unit may only be used on rack systems with 20" deep chassis. Recommended for the Kendall Howard Portable Rack Line.

Kendall Howard Rack Shelving

Part Number

3U Media Shelf   **1905-3-000-03A**
The Kendall Howard Rack Mounted Media Shelf is a great addi-
tion to any racking system. This shelf allows you to conven-
iently store CDs, tapes or most media types. Imagine not hav-
ing to search for that important startup disk or emergency
recovery disk. This component is also great for musicians and
DJ's allowing easy storage of your sampling, data and music
CD's. This item is recommended for all music rack configura-
tions. Our Media Shelves are constructed from heavy 14-gauge
steel and individually formed. Each corner also features radius
corners for optimum safety and handling.

1U 12" Component Shelf   **1906-1-001-01A**
The Kendall Howard Rack Mounted line of shelves is another
great way to store your non-rack mountable components. Our
shelves are suitable for monitors, modems, DSL routers, tape
players, backup units, and virtually anything you can think of.
These products are constructed from heavy 14-gauge steel and
individually formed by hand. Each corner also features radius
corners for optimum safety and handling. All shelving units
have a front and back flange to ensure your components can-
not slide off. Our 1U unit is so strong you wont believe it! Even
many heavy flat screen monitors will mount with ease. This is
the perfect shelf for the space conscious customer.

2U 14" Component Shelf   **1906-1-002-02A**
Our 2U unit is a great medium to heavy-duty shelf. This unit
will support just about any monitor or other medium weight
component. This is the all around best shelf for most racking
needs.

3U 16" Component Shelf   **1906-1-003-03A**
Our 3U unit is the Goliath of rack shelves. With the ability to
use all 12 mounting holes, there is almost nothing you cannot
safely mount on this shelf.

4 Point Adjustable Shelf   **1906-3-006-02A**
Imagine a 4 point shelf that will expand to fit in almost any 19"
rack. This shelf is one of the most versatile and innovative
products that we manufacture. Capable of adjusting from 22"
all the way to 40" deep! Because of its unique design this
shelving unit can hold 350 lbs evenly distributed. An absolute
must for any racking system.

Centerline Shelf (Vented)   **1907-3-000-03A**
The Kendall Howard Rack Mounted Centerline Vented Shelf is
one of the strongest most stable shelves on the market. Unlike
most centerline shelves, which may "teeter", our centerline
shelf is rock solid. The mounting flanges are not only press
welded onto each side but wrap completely around the bottom
to give it unprecedented stability and strength. This patent
pending design will truly prove to be one of the strongest rack-
ing components you can own.

Centerline Shelf (Solid)
1907-3-001-03A

The Kendall Howard Rack Mounted Centerline Solid Shelf is one of the strongest most stable shelves on the market. Unlike most centerline shelves, which may "teeter", our centerline shelf is rock solid. The mounting flanges are not only press welded onto each side but wrap completely around the bottom to give it unprecedented stability and strength. This patent pending design will truly prove to be one of the strongest racking components you can own.

Stationary Keyboard Tray
1910-1-001-01A

The Kendall Howard series of Stationary Keyboard trays are an inexpensive way to mount your keyboards to almost any open racking system. Exceptionally strong and lightweight, this unit will keep your keyboard stable while allowing you room to configure your rack your way. Our Stationary Keyboard trays are constructed from heavy 14-gauge steel and individually formed to maintain the highest quality. These shelves come with our standard heavy-duty black textured powder coat paint. Units are available in other colors with quantity orders. Ask your customer service representative for customization details.
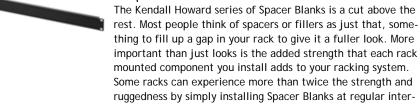

Kendal Howard Accessories

Part Number

1U Spacer Blank
1901-1-001-01A

The Kendall Howard series of Spacer Blanks is a cut above the rest. Most people think of spacers or fillers as just that, something to fill up a gap in your rack to give it a fuller look. More important than just looks is the added strength that each rack mounted component you install adds to your racking system. Some racks can experience more than twice the strength and ruggedness by simply installing Spacer Blanks at regular intervals.

Part Number

XL Rack Helper — 1924-1-100-02
The Kendall Howard Patent Pending XL Rack Helper was created to help network installers support extremely heavy rack components. Unlike the standard Rack Helper which only gives 3.5" of support, the XL extends 11" into your rack providing unsurpassed holding power. Simply install this device just below any heavy component. Next slide your component on top, attach with screws and your finished. No more running around trying to find someone to help hold up your server or UPS while you attempt to line up the mounting holes and tighten in the screws. An absolute must for all network installers.

10-32 Rack Screws (50 ct.) — 0100-1-001-01A
Rack Screws are made from forged steel and are painted with a black powder coat to match most racking systems. Rack Screws use a standard Cross Head Driver.

Portable Rack Caster Kit — 0013-2-004-00A
Our medium duty rack caster kit comes with four medium duty casters, and all the hardware necessary for mounting to any Kendall Howard Portable Rack System. Casters come with poly wheels to ensure they do not leave marks on tiled or other hard surfaces. Each caster will support 200 lbs (evenly distributed) giving your total caster weight capacity of 800 lbs per rack.

Portable Rack Locking Caster Kit — 0014-2-004-00
Our medium duty rack locking caster kit comes with four medium duty casters, and all the hardware necessary for mounting to any Kendall Howard Portable Rack System. Casters come with poly wheels to ensure they do not leave marks on tiled or other hard surfaces. Each caster will support 200 lbs (evenly distributed) giving your total caster weight capacity of 800 lbs per rack.
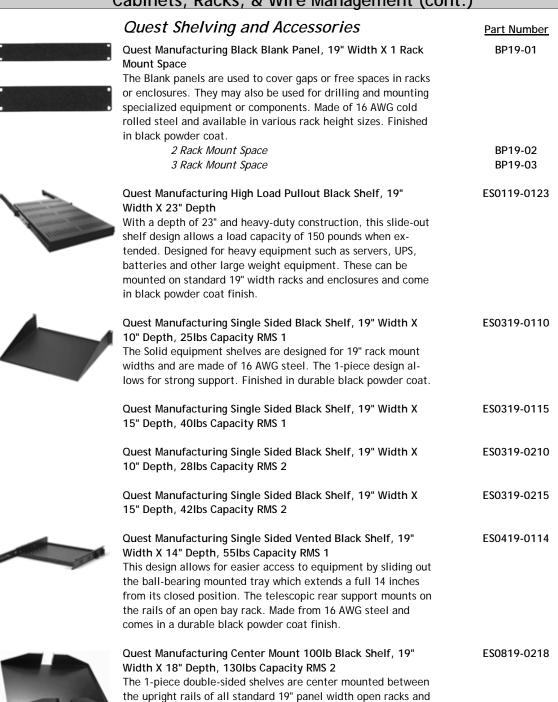

Stacking Bracket Kit — 1921-1-000-00A
This bracket allows you to safely stack the 8, 12 and 20 Portable Racking Units. Kit comes with 2 brackets, one for each side of the cabinet.

Quest Shelving and Accessories

	Part Number

Quest Manufacturing Black Blank Panel, 19" Width X 1 Rack Mount Space — BP19-01

The Blank panels are used to cover gaps or free spaces in racks or enclosures. They may also be used for drilling and mounting specialized equipment or components. Made of 16 AWG cold rolled steel and available in various rack height sizes. Finished in black powder coat.

2 Rack Mount Space — BP19-02
3 Rack Mount Space — BP19-03

Quest Manufacturing High Load Pullout Black Shelf, 19" Width X 23" Depth — ES0119-0123

With a depth of 23" and heavy-duty construction, this slide-out shelf design allows a load capacity of 150 pounds when extended. Designed for heavy equipment such as servers, UPS, batteries and other large weight equipment. These can be mounted on standard 19" width racks and enclosures and come in black powder coat finish.

Quest Manufacturing Single Sided Black Shelf, 19" Width X 10" Depth, 25lbs Capacity RMS 1 — ES0319-0110

The Solid equipment shelves are designed for 19" rack mount widths and are made of 16 AWG steel. The 1-piece design allows for strong support. Finished in durable black powder coat.

Quest Manufacturing Single Sided Black Shelf, 19" Width X 15" Depth, 40lbs Capacity RMS 1 — ES0319-0115

Quest Manufacturing Single Sided Black Shelf, 19" Width X 10" Depth, 28lbs Capacity RMS 2 — ES0319-0210

Quest Manufacturing Single Sided Black Shelf, 19" Width X 15" Depth, 42lbs Capacity RMS 2 — ES0319-0215

Quest Manufacturing Single Sided Vented Black Shelf, 19" Width X 14" Depth, 55lbs Capacity RMS 1 — ES0419-0114

This design allows for easier access to equipment by sliding out the ball-bearing mounted tray which extends a full 14 inches from its closed position. The telescopic rear support mounts on the rails of an open bay rack. Made from 16 AWG steel and comes in a durable black powder coat finish.

Quest Manufacturing Center Mount 100lb Black Shelf, 19" Width X 18" Depth, 130lbs Capacity RMS 2 — ES0819-0218

The 1-piece double-sided shelves are center mounted between the upright rails of all standard 19" panel width open racks and are offered in non-ventilated and ventilated designs. Made of 16 AWG steel construction in black powder coat finish.

Quest Manufacturing Center Mount 130lb Black Shelf, 19" Width X 25" Depth, 12lbs Capacity RMS 1 — ES0819-0225

	Part Number

Quest Manufacturing Keyboard Mount Black Shelf, 19" Width X 18" Depth, 12lbs Capacity RMS 1 — ES1019-0108
The stationary keyboard/ mouse shelf mounts on any 19" width open rack and accommodates standard keyboards and its mouse tray can be mounted on the left, right or center of the tray. Takes up 1 RMS (1.75") and comes in black powder coat finish.

Quest Manufacturing Keyboard Pull-out Mount Black Shelf, 19" Width X 15" Depth, 15lbs Capacity RMS 1 — ES1119-0115
Designed for mounting on 19" width enclosures, this hide-away keyboard shelf is mounted on a bearing track which allows the keyboard shelf to be stowed when not in use. A quick slide pull and 90 degree turn is all it takes to set up the keyboard tray for operation. Incorporated in the tray is a pull-out mouse shelf. Takes up 1 RMS (1.75") of panel space and comes in black powder coat finish.

Cable Routing and Wire Mgmt.

	Part Number

Universal Wire Mender — 0004-1-002-01A
The Kendall Howard rack mounted Universal Wire Minder is the perfect add on to any racking system. This adaptive design allows it to be mounted in eight different positions based on what best fits your racking needs. This Wire Minder has a generous 1.5" by 3" clearance to manage even the largest cables and is made from .090″ Steel to assure strength and durability.

1U Cable Routing Blank — 1902-1-001-01A
The Kendall Howard series of Cable Routing Blanks is an excellent solution for your cable routing needs. These devices help to route cables from patch panels, routers, switches, and virtually any component that requires front mounted cables. Simply placing a Cable Routing Blank adjacent to your component allows you to route your cabling to the back of your racking system, conveniently and effortlessly.

2U Cable Routing Blank — 1902-1-002-02A

1U Managed Cable Minder — 1903-3-000-01A
The Kendall Howard Cable Minder is an excellent solution for your cable routing needs. Routing cables from patch panels, routers, switches, and virtually any component that requires front mounted cables. Our Cable Minders are constructed from heavy 14-gauge steel. This minder also includes 24 semi-hard molded plastic Minder Clips.

Kendall Howard LAN Stations

Our LAN Stations are absolutely perfect for test labs, project work benches, shipping or assembly tables. They're made from 2" Square tube steel and welded together for optimum strength and reliability. Each table top and shelf is hand crafted with a premium laminate and reinforced with square tube steel across the entire table. All tables come complete with one lower and two upper shelves.

Kendall Howard Work Benches

	Part Number
24" Performance Work Bench	5000-3-100-24

New in 2005, the Kendall Howard Performance series of work stations are top of the line in quality and versatility. This completely modular system allows you to design virtually any layout suitable for your environment. Each bench frame is made from only the highest quality American-Made tube steel welded and assembled right here in our St Paul, Minnesota manufacturing facility.

LCD and Plasma Monitor Mounts

	Part Number

Moview Standard LCD Monitor Arm
The arm adjusts in every direction for custom comfort and a perfect view. And since that view also takes in the attractive styling of the adjustable monitor arm itself, it's never looked better.

5200-3-511-00

Elite Model

5200-3-512-00

Moview Arm Wall Mount Accessory
This adapter allows Moview® Standard and Elite arms to be mounted to a wall stud.

5200-3-513-00

Moview Flush Mount
Mount your LCD flat panel to the wall with the only self leveling flush mount available. Easy installation... level NOT required!

5200-3-514-00

Moview Fully Articulating Wall Mount
Mount your LCD flat panel to the wall with the only self leveling Tilt and Pan mount available in this price class. Easy installation... level NOT required!

5200-3-515-00

Moview Dual LCD Monitor Stand
If you have two LCD monitors, the Moview® Dual is the perfect solution for saving space and providing maximum ergonomic comfort. The Dual is the most versatile, durable desk stand available. Unlike other brands, the Moview® Dual moves in every direction for maximum adjustability.

5200-3-516-00

Moview Triple Monitor Stand
If you have three LCD monitors, the Moview® Triple is the perfect solution for saving space and providing maximum ergonomic comfort. The Triple is the most versatile, durable desk stand available. Unlike other brands, the Moview® Triple moves in every direction for maximum adjustability.

5200-3-517-00

Moview Quad Monitor Stand
If you have four LCD monitors, the Moview® Quad is the perfect solution for saving space and providing maximum ergonomic comfort. The Quad is the most versatile, durable desk stand available. Unlike other brands, the Moview® Quad moves in every direction for maximum adjustability.

5200-3-518-00

Moview Double Arm
Our unique Double LCD arm lets you reposition two monitors at will...and independent of each other for infinite viewing configurations. Desk clamp removes monitors' footprint, saving tons of space.

KS-316F and 324F series

Description	Part Number
16 port 10/100TX switch with optional 100FX slot. Support VLAN & Trunking	KS-316F
24 port 10/100TX switch with optional 100FX slot. Support VLAN only	KS-324F
100FX add-on module for KS-316/324. MM ST, 2KM	KS-300-FT
100FX add-on module for KS-316/324. MM SC, 2KM	KS-300-FC
100FX add-on module for KS-316F/324F. SM SC, 20KM	KS-200-S20

Transceivers

Transceivers

The KTI Ethernet transceiver family is a IEEE 802.3 compliant Ethernet transceiver series that provides a complete interface of the AUI port to a thin Ethernet cable, a UTP cable and a Fiber Optic cable connections. A complete set of LEDs indicates the diagnostic status between your Ethernet devices and cabling systems. The compact design makes it flexible to use in a variety of networking devices. KT-10F supports full/half duplex mode that can be operated between switches, routers, and servers in full-duplex transmission.

KS-316F and 324F series

Description	Part Number
AUI to UTP Ethernet transceiver	KT-10T
AUI to BNC Ethernet transceiver	KT-10B
AUI to Fiber Ethernet transceiver	KT-10F

GoldX™-Surge Protectors, Firewire, USB, Printer, and Serial Cable

GoldX™ PowerCore™ System

You can stop destructive surges from crippling you hardware and scrambling software data with a surge protector. This product is designed to detect and dissipate damaging power surges before they harm your electronic equipment. Eliminate the need to have multiple power strips under your desk to run your USB, FireWire, Ethernet and other devices.

GoldX™ PowerCore™ System

	Part Number
GoldX™ - PowerCore™ System base Clean up your desk clutter with this expandable system You can stop destructive surges from crippling your hardware and scrambling software data with a surge protector. This product is designed to detect and dissipate damaging power surges before they harm your electronic equipment.	GXSB-7555
GoldX™ - Cable/DSL Router 24 Karat Quality Cable/DSL Router that allows you to share a High-Speed internet connection and protect it with a NAT firewall.	GXSE-R100

GoldX™ Printer Cable

Part Number

GoldX™ - Printer Cable, IEEE, DB25 Male to Centronix, 15 Ft
Allows bi-directional communication between the computer
and printer. An IEEE-1284 compatible printer cable is required
by most printer manufacturers. Please review your owner's
manual for additional information.

GX200-15

GoldX™ USB

USB Cables are designed to connect USB Peripherals to USB Enabled Computers. Contrary to
normal belief, there is only one active USB specification, this is version 2.0. In the 2.0 spec,
there are three speeds that a device can function at. These are Low-Speed, 1.5 megabits per
second (Mbps), Full-Speed, 12 Mbps, and Hi-Speed (480 Mbps). GoldX™ Products part numbers
GX600-06, GX600-10, or GX600-15, has two speeds that they will work with Low-Speed and
Full-Speed. The 2.0 certified version, part numbers GX620-06, GX620-10, or GX620-15, will
perform at Low-Speed, Full-speed, and Hi-Speed. The cables listed above look the same. The
way to tell if you have a GX600-xx or a GX620-xx is to look for the USB High Speed Certified
Flag on the cable. If that flag is not there, then look for a test ID number printed on the jacket of the cable.

GoldX™ USB Cables

Part Number

GoldX™ - USB Cable, A MALE- B MALE, 6 Foot
The GX620-06 USB High speed 2.0 cable is used to connect any

GoldX A/V Line Standard Video Cables

Part Number

Composite Video Cables -- Standard for VCRs
This high-performance video cable provides a superior connec-
tion for your digital equipment. GoldX's quality cable construc-
tion guarantees the highest integrity of signal transfer, result-
ing in a picture that is sharp, clear and vivid for an improved
viewing experience from your equipment.

3 ft RCA to RCA	GXAV-Y-03
6 ft RCA to RCA	GXAV-Y-06
12 ft RCA to RCA	GXAV-Y-12
25 ft RCA to RCA	GXAV-Y-25
50 ft RCA to RCA	GXAV-Y-50

S-Video Cables (SVHS)
GoldX Digital S-Video Cables by JDI bring your pictures to life.
This S-Video connection will improve the picture and can re-
duce dot crawl and hanging dots that blur and distort images,
providing viewers with crisp detail and sharp definition. Bright-
ness and color signals are separated through the precise tech-
nology of separate shielded conductors. This S-Video Cable
helps provide the clearest picture with the most accurate and
intense colors.

3 ft MiniDIN 4 Male to MiniDIN 4 Male	GXAV-SV-03
6 ft MiniDIN 4 Male to MiniDIN 4 Male	GXAV-SV-06
12 ft MiniDIN 4 Male to MiniDIN 4 Male	GXAV-SV-12
25 ft MiniDIN 4 Male to MiniDIN 4 Male	GXAV-SV-25
50 ft MiniDIN 4 Male to MiniDIN 4 Male	GXAV-SV-50

S-Video Extension Cables (SVHS Extensions)
GoldX Digital S-Video Extension Cables by JDI maintain the
signal quality of the GoldX S-Video cables while extending
them that extra needed distance. The S-Video connection will
improve the picture and can reduce dot crawl and hanging dots
that blur and distort images, providing viewers with crisp de-
tail and sharp definition. Brightness and color signals are sepa-
rated through the precise technology of separate shielded
conductors. This S-Video Cable helps provide the clearest pic-
ture with the most accurate and intense colors.

3 ft MiniDIN 4 Male to MiniDIN 4 Female	GXAV-SVE-03
6 ft MiniDIN 4 Male to MiniDIN 4 Female	GXAV-SVE-06
12 ft MiniDIN 4 Male to MiniDIN 4 Female	GXAV-SVE-12
25 ft MiniDIN 4 Male to MiniDIN 4 Female	GXAV-SVE-25
50 ft MiniDIN 4 Male to MiniDIN 4 Female	GXAV-SVE-50

GoldX A/V Line HDTV Video Cables

Part Number

Component Video HDTV Cables
Ordinary cables just aren't able to deliver the incredible video output that is possible from the latest high-performance electronic devices. GoldX Products Component Video Cables by JDI allow your electronics to operate at their full potential. Helping produce the optimum in video quality, these cables are designed to connect your high-performance video monitor using Component (Y, Pr, Pb or Y, Cr, Cb) inputs. Signal delivery is transferred in real time, without corruption. Take your electronic investments to peak performance levels with GoldX Component Video Cables.

3 ft Triple RCA to Triple RCA	GXAV-RGB-03
6 ft Triple RCA to Triple RCA	GXAV-RGB-06
12 ft Triple RCA to Triple RCA	GXAV-RGB-12
25 ft Triple RCA to Triple RCA	GXAV-RGB-25
50 ft Triple RCA to Triple RCA	GXAV-RGB-50

Digital Video Interface Cables -- DVI
Digital Video Interface (DVI) is the new and upcoming standard for video on computers and LCD TV monitors. DVI has two sections to the specification, analog and digital. This cable connects an analog RGB video devices with a analog DVI LCD monitor or an analog DVI video card with a VGA Monitor.

6 ft DVI-A-VGA Male - Male	GXDV-AV-06
10 ft DVI-A-VGA Male - Male	GXDV-AV-10
6 ft DVI-D-DVI-D Male - Male	GXDV-DD-06
10 ft DVI-D-DVI-D Male - Male	GXDV-DD-10
6 ft DVI-D-DVI-D Male - Male Dual Link	GXDV-D2-06
10 ft DVI-D-DVI-D Male - Male Dual Link	GXDV-D2-06

High Definition Multimedia Interface Cables -- HDMI
For high definition all-digital video in pure digital form that looks its best. GoldX Products' HDMI to DVI cable by JDI with enhanced durability and optimized signal transfer offers an extraordinary high-definition video experience. With 24k gold contacts for maximum signal transfer and corrosion resistance, along with high-density, triple-layer shielding for excellent interference rejection, the right choice for any of your HDMI-to-DVI connections is GoldX Products HDMI To DVI Cable.

3 ft DVI-D Single Link to HDMI 19 pin	GXHD-DA-03
6 ft DVI-D Single Link to HDMI 19 pin	GXHD-DA-06
10 ft DVI-D Single Link to HDMI 19 pin	GXHD-DA-10
3 ft HDMI 19 Pin to HDMI 19 pin	GXHD-DA-03
6 ft HDMI 19 Pin to HDMI 19 pin	GXHD-DA-06
10 ft HDMI 19 Pin to HDMI 19 pin	GXHD-DA-10

GoldX A/V Line Audio & Video Cable Kits

Part Number

Standard Audio & Video Kits

Ordinary cables just aren't able to deliver the incredible video output that is possible from the latest high-performance electronic devices. GoldX Composite Video and Analog Audio Cables allow your electronics to operate at their full potential. Helping produce the optimum in video quality, these cables are designed to connect your high-performance video monitor using composite video with Left and right channel audio inputs. Signal delivery is transferred in real time, without corruption. Take your electronic investments to peak performance levels with GoldX Composite Video and Analog Audio Video Cables.

3 ft 3 RCA to 3 RCA (Composite Video, L/R Audio)	GXAV-YLR-03
6 ft 3 RCA to 3 RCA (Composite Video, L/R Audio)	GXAV-YLR-06
12 ft 3 RCA to 3 RCA (Composite Video, L/R Audio)	GXAV-YLR-12
25 ft 3 RCA to 3 RCA (Composite Video, L/R Audio)	GXAV-YLR-25
50 ft 3 RCA to 3 RCA (Composite Video, L/R Audio)	GXAV-YLR-50

HDTV Audio & Video Kits

Ordinary cables just aren't able to deliver the incredible video output that is possible from the latest high-performance electronic devices. GoldX Products Component Video Cables by JDI allow your electronics to operate at their full potential. Helping produce the optimum in video quality, these cables are designed to connect your high-performance video monitor using Component (Y, Pr, Pb or Y, Cr, Cb) inputs. Signal delivery is transferred in real time, without corruption. GoldX's Audio Cable enhances the performance of your audio connections. These high-performance cables enable you to obtain a better sound quality from today's sophisticated electronic equipment. Take your electronic investments to peak performance levels with JDI Component Video and Analog Audio Cables.

3 ft 5 RCA to 5 RCA (Y, PR, Pb & L/R Audio)	GXAV-RGBLR-03
6 ft 5 RCA to 5 RCA (Y, PR, Pb & L/R Audio)	GXAV-RGBLR-06
12 ft 5 RCA to 5 RCA (Y, PR, Pb & L/R Audio)	GXAV-RGBLR-12
25 ft 5 RCA to 5 RCA (Y, PR, Pb & L/R Audio)	GXAV-RGBLR-25
50 ft 5 RCA to 5 RCA (Y, PR, Pb & L/R Audio)	GXAV-RGBLR-50

Custom Fiber Optic Cable, Copper Cable, and Security Networks

Fiber Optic - Custom Cable

Copper - Custom Cable

Custom Security Network *NEW*

CablesPlus has built its reputation as a leading supplier of high integrity cable assemblies by sourcing only the highest quality products as well as being committed to our customers' needs. Our commitment is to provide our valued customers with cable assemblies engineered with the finest quality components, manufactured with precision workmanship and the highest quality assurance.

CablesPlus also provides Custom Cable and Custom Security Network capabilities. To submit your request for a custom application, please fill out the information found in the above forms. The more detail you can provide us the better we will be able to quote your product. Your cable requirements will be evaluated and one of our representatives will contact you with a price quote and lead-time, normally within 24 hours.

Thank you for giving us the opportunity to earn your business. All custom cables are guaranteed against manufacturing defect; however, please keep in mind all custom assemblies are non-cancelable and non-returnable once production begins.

Cables Plus

CablesPlus is the result of a dream, combined with years of hard work coming together and resulting in a company founded on the principals that hard work, honesty, integrity, dedication and strong relationships will make a company, its employees, suppliers, and customers all successful.

CablesPlus is a wholesale supplier of data communication connectivity solutions, fiber optic cable, TFOCA, network cables, fiber patch panels, MTP/MTO cassettes, and custom-designed cables. We are committed to supplying superior performance, quality-assured fiber optic and networking products, and providing outstanding service to our customers. We have a wide array of distributors in the United States that we use to bring you products at very affordable prices:

With our network of distribution we have the ability to meet the needs of small, large and Government requirements quickly and cost effectively.

CablesPlus is dedicated to providing its customers with high quality, reliable, and cost effective network products. Our goal is to earn our customers' trust and keep it for years to come. If you would like to hear what people have said about us, please read our Customer Reviews on our website.

Capabilities

With our international network of manufacturers, **CablesPlus** has the capability of sourcing cost effective, high quality fiber optic and networking products from around the world and can therefore supply them to you at the greatest cost savings. We recommend our fiber optic products for building your networking infrastructure. Fiber optic cable has far more capacity and speed than conventional copper wire and costs much less in the long run. *Please visit the following website to learn more about fiber optics: www.fiber-optic-cables-plus.com*
